AFTER DEFEAT PALATINE STILL HEADS LEAGUE

Antioch High School Nips
Palatine Five in Feature
Game Tuesday

Antioch high school's veteran crew of basket flippers, nosed out the fast stepping Palatine quintet 26-24 at Antioch Tuesday night.

One hundred and fifty Palatine fans traveled to the northern city, and witnessed the first defeat of the year for the local five. It was anyone's game from the time the whistle blew until the gun announced the result.

Interest in the game was so heated that nearly every school in the conference was represented.

At the beginning of the game the Palatine boys whizzed around and through the Antioch team.

PALATINE QUINTET, LEADING CONFERENCE TEAM

Left to right: Howard Smith, Louis Reese, Herman Gieseke, Ben Grandy, Bob Deverman, Royal Meyer, Dalton Kruse, Myron Hedgcock; Coach Kincaid.

Antioch, in a 5 point lead at the quarter but the next period saw the margin slowly diminish until the count was tied at twelve all, at half time.

Antioch sprinted to a six point lead during the third quarter only to have this sliced down again with the Palatine team playing a "real comeback."

In the first half Antioch seemed unable to cope with Palatine's long shots. The last half saw the Antioch defense very much distorted, in an attempt to stop the long range shots of Grandy and Deverman. It was at this period of the game that Palatine pierced Antioch's defense upon several occasions.

Palatine has no alibis to offer, the floor wasn't too small or the ceiling too low, but they met a team that was their equal and fans who saw the game will not concede them anything more. The two teams met again February 22 on the local floor.

Palatine, with one defeat is still leading the Northwest conference. Gurnee is second, by dint of their 28-19 defeat of Antioch, the latter rating third with ARLINGTON HEIGHTS taking fourth place.

To retain fourth place Arlington Heights must defeat the Gurnee outfit this Saturday night. Gurnee being in second place now. Much interest will be attached to this tussle.

Palatine's team is journeying to Crystal Lake this Friday to engage in an important non-conference tilt.

The Northwest Conference standings are as follows:

	W	L	Pct
Palatine	6	1	.857
Gurnee	5	1	.833
Antioch	4	1	.800
Heights	3	2	.600
Libertyville	3	3	.500
Barrington	1	4	.200
Wauconda	1	6	.143
Leyden	0	5	.000

Civic Organizations To Ask for Speedier Railroad Time Table

Members of Palatine, Barrington and Crystal Lake civic organizations met in Barrington Tuesday night and decided to appoint a committee to take up with Chicago & Northwestern railroad officials certain changes in the North Western's passenger schedule affecting the three towns.

The principal changes desired include the stopping of the fast 8:30 a. m. Crystal Lake-Chicago train at Barrington and Palatine and the stopping at Barrington and Palatine of the fast trains leaving Chicago at 4:30 and 8:30 p. m.

The committee appointed consists of J. C. Cadwallader, A. H. Soss, Spencer Otis, Sr., of Barrington; F. R. Rennick, Fred Matthal, of Palatine, and Sam T. March and L. W. Cobb of Crystal Lake. A committee of three men, one from each of the towns, probably will be named to take up the matter with the railroad officials as soon as an engagement can be made.

Those attending the meeting on Tuesday included C. E. Paxton, F. A. Hecht, Jr., Spencer Otis, Sr., F. R. Hatje, Louis J. Miller and Corran Sample, of Barrington; Harry H. Schopp, Louis Schopp, Henry C. Hitzman, Fred Buecnow, Charles Renick and Ralph L. Peck of Palatine and E. T. Hoffman of Crystal Lake.

Last week a five-acre tract was sold through the want ad columns and we are still having calls at this time about it. Are you taking advantage of these opportunities?

Gurnee Will Play At Arlington Heights This Week Saturday

Local netters will face stiff opposition on the high school floor when the Warren township high school of Gurnee lines up for the tip off tomorrow night. It will be recalled that the visitors are one of the dangerous teams in the conference. Last year they were the nemesis of Arlington Heights when they nosed the locals out by 1 point in the invitation tournament and then went through to the championship.

Arlington will be strengthened considerably by the appearance of Roland Boite in the line up. Fans will be glad to learn that he has made up the scholastic difficulties from last year and is on the eligibility list.

The Barrington game was a real thriller and those who missed it had better not let another slip by. Let's get together and have a large enough crowd to out root the visitors.

The need of a waterway to the Gulf from Chicago is best illustrated by the route which that carload will take. The freight rate from Arlington Heights to the Philippine Islands via railroad to the Pacific Coast and thence by steamer to its destination is three times what it will be via rail to Cairo, Ill., thence by steamer down the Mississippi river to New Orleans, thence by boat to the Philippines.

Every school supply house in the United States has been buying its slate from practically one quarry. Slate is very much poorer than in other years and there is a big delay in getting orders filled. Shipment of slate from Italy places the E. W. A. Rowles Company, independent of domestic production.

The E. W. A. Rowles Company sell many things side from blackboards, but it is in blackboards which Mr. Jasper is particularly interested. He had a factory of his own in Rhode Island at one time and he is doing a lot of experimental work today. The Rowles plant in Arlington Heights was established originally for their blackboard division. The original building 125x100 feet, has been doubled and today there is 25,000 square feet of space used for that purpose. The plant has acquired considerable additional property which will permit the ultimate complete manufacturing works of the company, in Arlington Heights.

The shipments during the busy season of summer are about one car load each day. The labor turn over in the local plant is very small. Many of the men have been employed there several years and there is no employee who has not been with the company over a year.

There are probably many other things about this company that our reporter could have learned from Mr. Jasper, but the mind of the latter was very much interested in a shaft in his car which became broken when its driver hit a rather large snow bank. So we will wait until next summer to tell you more about those blackboards. It will be interesting to know that Mr. Jasper furnished all the boards for the recently completed Lutheran school at Palatine.

The officers of the company were unanimously re-elected as follows: President, August Geweke; secretary-treasurer, George Stell; vice president, John C. Sass. Edwin D. Lawlor was re-elected as attorney and counsel for the company. Five members of the board of directors whose three year terms expired at this time were, August Geweke, Wm. R. Moeller, Geo. Stell, Hans Ellerbrock, and Albert Landmeier. These gentlemen were also re-elected with the exception of Mr. Ellerbrock who requested that a younger man be selected to fill his place. Mr. Ellerbrock, in retiring, was given a vote of thanks by the board for his efficient services as member of that board since the company's organization. Considering the fact that the limits of the company had been extended to include the adjoining counties of Lake and DuPage it was considered practical and advisable that the farmers in that territory have a representative on the board and accordingly Mr. Louis Cornille, of DuPage County was nominated and elected to fill Mr. Ellerbrock's place. Mr. Cornille, an interested and willing worker for the good of the insurance company will be a very capable and good officer.

President Geweke, in his annual report gave to the members interesting data regarding membership, claims reported and settled and other facts relative to the activities of the company during 1926. He stated that experience had clearly demonstrated that the insured farmers as a whole were very careful in the operation of their trucks and cars than any other class of drivers, and urged them to exercise even greater care when manipulating their cars on the public highways, for he has been found that on the average, the insured members have been found blameless in two out of every three accidents, the accidents resulting from carelessness being chargeable to the other parties.

Mr. Geweke added that the company was organized solely for the

protection of its members in a mutual and co-operative way and not for any individual profit. The conscientious work of the officers and board together with the whole-hearted co-operation of the members have made the company successful, and through continued co-operation and the wise guidance of its board of directors, the Cook County Farmers Mutual Insurance Company will grow even more successful as it progresses.

Miss Elizabeth Banta was attending a high school sleighing party Wednesday night, when a snow ball a little harder than the others, caught her lip, necessitating three stitches.

There are a lot of big fellows who have not forgotten when they were kids. Dr. B. T. Best is one of these. He called at the Herald office unsolicited this week and handed over \$2.00 towards a prize. Other professional and business men are showing the same spirit. So the prize entries are coming thick and fast.

Moving Pictures
The plans for the moving pictures are being consummated and we will tell you all about those next Tuesday's paper. We have ordered an extra lot of film. If the races are good, the film will show it. If the dogs have a little argument or run away, the films will tell the story, unless of course the dogs get out of range of the camera.

All Arlington Heights entries should be made at the Herald office tomorrow (Saturday) between 1:30 and 4 o'clock. Members of the V. F. W. will be on hand to take care of you.

NOTICE
My attention was called by a member of the Board of Health, asking me if I had collected laundry from a home in Arlington Heights that had been placarded by a sign warning of measles.

As a safeguard to the public and in co-operation with the local Boards of Health, I wish to inform whomever it may concern that I do not and never did collect laundry or dry cleaning from any home that has a placard posted warning of contagious disease of any kind or where to my knowledge such a condition existed.

My refusal to collect laundry from these homes during these periods has caused hardships to them, loss of business to myself and in some cases has even meant the loss of the customer, due to my refusal to take same.

However, if all parties coming in contact with such conditions would act as I have, and abide by the rules of the Board of Health, I think it would benefit the community and cause less hardship, due to negligence.

LOCAL FIRM IMPORTS CARS FROM EUROPE

It has been the privilege of the Herald from time to time to tell about the progress and achievements of local business houses. We are all interested in the growth and prosperity of home institutions and when our reporter "stumbled into" some facts about the E. W. A. Rowles Company, we charged Manager Al Jasper with hiding his light under a bushel basket. Al disclaimed all responsibility, but he did allow us to remove the basket. Here is what we learned.

The E. W. A. Rowles Co. are the largest importers and exporters in Arlington Heights. Since moving their blackboard division to Arlington Heights its business in that line has increased nearly 1,000 per cent. The output of boards has risen from 80,000 square feet, to very nearly a million a year.

They received in Arlington Heights this week one shipment of natural slate from Italy and a car of asbestos board from Belgium. They will export a straight carload of 150,000 square feet of black boards for the Philippine Islands.

The need of a waterway to the Gulf from Chicago is best illustrated by the route which that carload will take. The freight rate from Arlington Heights to the Philippine Islands via railroad to the Pacific Coast and thence by steamer to its destination is three times what it will be via rail to Cairo, Ill., thence by steamer down the Mississippi river to New Orleans, thence by boat to the Philippines.

Events in the Lives of Little Men

Annual Meeting of Farmers Mutual Ins. Co. Shows Progress

The truck gardeners and farmers assembled at the Masonic hall in Jefferson Park, January 22, to hear and learn of the accomplishments and work carried on during the past year by the Cook County Farmers Mutual Insurance Co. Their own insurance company. An enthusiastic crowd attended although not quite as large as the crowd at the annual meeting of the association held two weeks ago.

From the annual reports of the secretary, treasurer it was learned that there was a favorable increase in the finances of the company during 1926 the total assets of the company Dec. 31, 1926, amounting to \$100,487.36 against a total of \$84,053.10, Dec. 31, 1925. There was also a satisfactory increase in membership for the imperative necessity of the protection afforded by insurance is being realized more and more by the farmers, although sad to say in many instances the member waits to learn this through experience.

The officers of the company were unanimously re-elected as follows: President, August Geweke; secretary-treasurer, George Stell; vice president, John C. Sass. Edwin D. Lawlor was re-elected as attorney and counsel for the company. Five members of the board of directors whose three year terms expired at this time were, August Geweke, Wm. R. Moeller, Geo. THREE TOWNS REPRESENTED IN DOG DERBY

Palatine, Mt. Prospect and Arlington Heights will all be represented in the Dog Derby to be held at the latter town on Lincoln's birthday. Palatine has already two entries and more are expected. The Mt. Prospect entrant says that gymnasiums and high schools have nothing to do with dogs and there is no reason why a canine from the smallest town of the three can not take the grand prize on Feb. 12.

There is one Arlington Heights lad who accepted the statement made in last week's issue that there would be a class for every size dog. He has a small one, not over ten inches high, but it will pull a sled and small passenger. That fellow deserves a prize for the ambition that he has shown.

The following Sunday afternoon, three more games will be bowled, making a total of nine games. That evening the five high bowlers from each side will be the contestants in the final match. At the close of the tournament, the five highest bowlers out of the twenty north and south side bowlers will form a team to trim Palatine.

The captains are Trost for the south side and Duenn for the north side. Duenn has his men all picked, but Trost failure to name his players has led to a lot of speculation as to whether he has a

dark horse or two. Each side has a "300" bowler, Campbell Avenue is the dividing line, but the north side takes their team north of the railroad tracks. Geo. Schneberger says that he may have an office south of that track, but he works and resides on the north side and he is placing all his money on the north side aggregation.

Monday's League
The Chevrolet and the Cement Works each started their game with four men. The cement handlers took the first two games, when "Tiny" Keiser came to their assistance, rolling 194. Such help was of no avail as the Chevrolet won only four men to the last game.

Mike Casey beat the A. B. C. two games. The beer slingers are crawling upward.

The Kehe Motors took two from the "idle" barbers. The barbers

hope to "come back" at the Dog Derby as they expect to beat all the other dogs that will be in that race on Lincoln's birthday. The barbers are game sports and have become so accustomed to losing that they enjoy it. Bill says that he learned years ago that it is more blessed to give than to receive.

Tuesday League Standing

Team	Won	Lost
Jewelers	39	21
Sweet Shop	37	23
Peoples Bank	29	31
Kochers	28	32
Elevator	25	34
Blatz	21	38

Extra! Extra! The People's State Bank took three games from the tailors. The score sheet gives the details. We will not make any cracks about it, as the Christmas Club boys deserve all the luck that can be theirs.

With Geo. Harris on the side lines, the Sweet Shop took two games from Blatz. George says there is just as much honor in cheering a team to victory as there is in getting the "strikes."

The Jewelers took all three games away from the elevators. Schne's team mates are asking him if his heart is not big enough for him to love two "children" at the same time. On Monday he played with the Chevrolet rolling 637.

On Tuesday he comes back with the elevators with the score of 455. Yet the hero claims he does not play favorites. We understand he is going to be given one more chance. The team mates dislike firing the captain, but as Gottlieb says, "business is business."

The local fans will get a chance to display their stuff in the tournament at Arlington Heights Recreation Parlors starting Monday, Jan. 31-Feb. 6, 1927.

OBSERVER'S NOTES

Some are in purpose so vicious; And others all unsuspecting. The first hide with a smile That a saint would beguile. As they plot to ruin—malicious.

All those who march in this column. Humorous, kindly—or solemn. While the bad we ignore—How can one, I implore, In truth and honor extol 'em?

Good, bad, and indifferent—all as Edgar Guest delight to put it "Just folks" march through the columns of the newspaper. Some times we think when we read the great city papers, all are bad. But don't you believe it. The multitude of good people, and good deeds make up life. Not the headlines in sensational journals.

No. There are no bad people in our town, and yet every community has individuals who are either in one or other of two classes, constructive or destructive. One class criticizes, pulls to pieces, tears down every plan or proposition, in church, family or community, for improvement, and progress, religious, educational or social. These belong in the destructive class.

The other class, constructives, see the need of action to meet the need of civic betterment. See the need of spiritual upbuilding and of broader educational opportunities. In fact are alive and await to the needs of the community, and sincerely desire to carry forward every movement to attain these ends. They may not do this, by sounding trumpets or the blowing of horns. They may not get "publicity," yet they go forward with fixed purpose, working always for public and general good. They are builders, they construct, which class are you in?

Arlington Heights is, I fully believe, made up of those who above all things, are builders. Look at them! Business men, churches, organizations, everywhere, everybody, with minds open to needs, with hands ready to do, for the upbuilding and betterment of this city of the prairies. A city of live, constructionists. People who do not seek to rise by tearing down other towns or other individuals. People, who come out in the open and divulge their plans: who are not thinking of self, or self aggrandizement. These are the people Observer delights to place in these notes—our real people.

Some things have been spoken of in other columns of which I desire to speak. One was the loss we, so many of us feel in the passing of Mr. Meyer. One of the most chery persons we ever met on our streets or in business. Always ready with a kindly word or greeting that was so sincere and so encouraging. And one of the best fathers, and I'm sure devoted husband. His sons and daughters are living testimonials to his influence and direction over their lives. I heard Mrs. Castle once say, when the children were yet in the home, that she never knew a better trained or nicer family in the home, than the children of Mr. and Mrs. Wm. P. Meyer. We who have known those children from early childhood can sincerely agree with this statement. We will deeply miss this kind father, cheerful neighbor and loyal citizen.

Those who have been informed of the work that Dr. Zimmerman has for so long carried on in Chicago, and for her world wide endeavor in behalf of unfortunate women and girls were indeed sorry to learn of her sudden death, in the midst of her activities. Of all the causes, espoused by our local Woman's club. None are more worthy than Dr. Jean Zimmerman's Shelter House work. A work to which a noble unselfish woman has given so much of her life and abilities. A work difficult to carry on.

Then there was the passing of a dear helpful friend, Mrs. Mary B. Beardsley. In her frequent visits to her sons family and indeed to her son, in the far years before he had a family, it was always a joy and a real comfort to meet her. In any company large or small, her cheery presence was always delightful. Strong self reliant and full of courage herself, she seemed to impart those same characteristics to others. A good friend in time of trouble. A kind sympathetic friend in time of sorrow.

and a congenial helpful friend to sit with in the home. In her last visits to Arlington she was not able to get about and myself disabled, I saw so little of her, but all who participated in the birthday reception for her daughter, Mrs. W. B. Beardsley gave for her in the Beardsley home, will never forget her happy cheerful face, and the joy with which she greeted us.

We are sad for the going of these dear friends, we love and "lost awhile." And we do not forget Mrs. Amos B. Nickols, who was for a while so much a part of us, talented, gentle and kindly, she was friends of all who knew her. Handicapped by her inability to hear, she was yet so capable of taking part in all musical affairs. We were sorry to have her go from Arlington Heights and grieved to hear of her sudden passing away.

These were some of the neglected thought tributes of flowers, I bring to the memory of those who have gone. There are other dropped stitches as it were, in the fabric of these notes, somehow left to be gathered up later. You know that old saying that among many capable of doing, a job may yet go undone. So it has proved in the case of that delightful banquet enjoyed by the Community OBSERVER—two Players, at Hillside Farm, two or more weeks ago. Now seemingly too late to record. It was told to me that one of the cast, who so ably wields the pen, would send in a report. Well?

Through some omission or commission, this failed. The Publicity Director frankly forgot he should attend the matter and now, I just want to tell you, it was a great big jolly success. The old Draper home stands for hospitality. And Mrs. Draper and her daughter, Mrs. Gilbert Klehm, part and parcel of the "players," are royal hostesses. The tables were beautifully spread and house beautiful with light and gaiety. The supper beautiful and of the best, was heartily enjoyed. There was music, wit and repartee and a jolly good time for the guests, everyone of the 20, who had a share of that banquet. Long live the Drapers. Next time they have a banquet, I'll write it up before it happens.

Why are our business men always taxed to keep up certain things, which are community necessities? For instance our Community nurse, and the welfare work. Why not have the whole town or community taxed to meet the expense of these so patiently needed public activities and institutions? Our business men come forward so generously in offering prizes and premiums, and it does not seem fair to bleed them for that which is of benefit to all alike.

Page, the Dog Derby! Who offers the incentive, the premiums and the prizes? Our ever public spirited and always liberal business men. Do they stop there? Not by a pipe full. Here comes a busy, overworked, overweight, purveyor of choice viands, and offers himself on the altar of his home town: Mr. George Hughes, the courageous champion in time of war, the efficient provider for the hungry in peace, offers himself, to run a race, and throws down the gauntlet to Mr. Herman Redeker to contest his valor! No prize, or premium can do more for that amazing Dog Derby than comrade Hughes' noble challenge! Our brave "buddies" better start those races headed toward their comrade Hughes' "Hot Dog" lunch rooms if they want to see them travel like wind.

What a heap of things beside birthdays February is bringing to our little burg. The Dog Derby, The Community Players new play, "Second Store Peggy," The Ladies Aid Bazaar and supper, and the regular weekly sessions of local activities. So all can have time and opportunity to "laugh and grow fat," before lent begins, and the groundhog gets us.

Pity anybody has leisure to sit down and ask "is life worth living?" Even with snow piled high

and the mercury doing zero stunts, with your dearest enemy doing his darndest, who is there among us that isn't glad to be alive these glorious winter days? Did you ever watch two little roly poly boys three and four years of age trying to build a snow man? Did you ever see our troops of school children pour out of the school room, and over run the play grounds with their sports? Did you hear those happy eighth graders bubbling over with joy and fun, as they gaily through the streets on that merry sleigh ride last week? God send some new interest, and some new work every day, and He will lead us on. Why whimper because we have cold or wet. The sunshine and flowers are on the way—Cheer up!

The brightest winter yet may be a drag before it goes, And tire with its monotony—Of beauty draped in snows.

And one may sometimes idly dream Of mountains vast, and sea, And think how jolly it would seem To travel worry free.

Yes, winter in its beauty It will at times depress, With so much care, and duty And shut-in loneliness.

Longing for inspiration, From mountains towering high And the thrills of exultation Where old ocean's waves sweep by.

You close your eyes to vision—Where tourists climb the world—When alas! in mad collision You read—to death they're hurled.

Yes, death comes to the fireside, It finds the shut-ins home—In to the air—on deserts wide And where wild billows foam.

Yet one will dream and ponder On un-seen beauty spread Beyond the mountains yonder Where winter brings no dread.

Once weary, I fell dreaming, It may be over-wrought, I cried for new light streaming And the key to higher thought.

For grander scenes—idly I prayed All the Great World to know—The key that in my hand was laid Was my garden seeds and hoe!

Elinore Crisler Haynes.

Presbyterian Notes
"I was glad when they said unto me, Let us go into the house of the Lord." Ps. 122:1.
Oliver Wendell Holmes on Church Attendance
Gladstone's rule, even in his older years was that of a "twiceer," as he termed it, at public worship. Church going, he said, was not a matter of fancy for a Christian; it is his duty for the work's sake. No public spirited disciple had a moral right to be absent except for a good cause, he often asserted, from public worship. I am a regular church-goer. I should go for various reasons if I did not love it, but I am fortunate enough to find great pleasure in the midst of devout multitudes, whether I can accept all creeds or not. For I find that there is in the corner of my heart a little plant called Reverence, which wants to be watered about once a week.

The sermon subject for Sunday morning will be "Seeing and Knowing, Now and Then."

In the evening another sermon on great men's texts will be given.

These 10 students, which all happen to be girls, have attained an average of from 90 to 100 per cent in their four major subjects and besides this must have done extra work not required in the regular course of study. As there is no royal road to learning" it shows that any one must do excellent or superior work and keep at it persistently, to get to be a top-notch on the honor roll. Miss Freund has also the distinction of being one of the ten charter members of the New Trier Debating club, which is limited to fifteen members.

M. E. CHURCH

We have made a good start in study of the world's religions. On Sunday night we will study Hinduism, and the following Sunday Buddhism. The service begins at 7:30 p. m. and there will be a special music, and a song service, and, after the presentation of the lesson, an open forum. You will enjoy that part.

The Ladies' Aid meets February 3, at the Coons residence.

The Adult choir had a good rehearsal Monday night, and did some hard work on a number of works. Their next work out will be on Tuesday evening at Wall-baum home.

The Young Peoples' Choir will rehearse Monday evening at the Kehle domicile.

In our Sunday school we are studying a bit of the influence which religion has had upon art. Charles Lamb said, "You can live without art, but not as well." We are seeing that the greatest art in the world has been inspired by the high idealism of religion. Visions of God are always visions of beauty. The life of Jesus never has failed to lead the soul to great heights. When men think of the Divine, and of the Eternal, and of God's love, they have always turned to art of some kind as a means of expressing what they felt. Think of the world's greatest architecture and painting, and poetry and music. When people really get the spirit of God in their hearts, their lives are beautiful, too. Godless lives are always ugly.

Home Business Men
Serve Community
In Many Ways

We read with amusement the big head lines in last week's Register announcing that the C. N. W. Ry. would sell reduced rate tickets, from Palatine to Chicago for the benefit of shoppers and others desiring to spend their money in the big city, for a big American dollar. We are still trying to figure out how many dollars those who took advantage of the offer would have to spend in the big stores of Chicago in order to save the price of their ticket. We are also wondering how much these same people would be able to collect from the Chicago business men should they try to raise a purse for charity in Palatine. Also what they would think of their own business men if they did not give freely to the purse. Excursions are all right for special occasions but we still believe that shoppers will derive the best results in the long run by trading at home with their local business men. We know that when the time comes together in some extra cash for some occasion the committee in charge feels more satisfied to go to those whom they have given their trade in the past and ask their assistance. We also know that the business man gives in a case of that kind with a better feeling than otherwise.

Boost your home town by being square with your business men and give them a chance to show you that they are all in favor of "Quick Sales and Small Profits." Goods sold quickly means they can be sold for less as money tied up in an article on the shelf for months must earn something while it is placed on the shelf the money invested is quickly put in circulation again.

Up-to-Date Employment Manager: "We'll pay you five pairs of chiffon stockings a week to start, Miss Guimpe, and if you make good we'll raise you two facials and a wave at the end of six months."

Have you read the want ads, if not turn to page eight.

Warn Against Hitching
Sleds on Behind Autos

The hitching of hand sleds behind autos has become noticeable around town and all know that sooner or later some terrible accident will be the outcome, but as long as drivers allow it the youngsters will take a chance. If drivers of autos were held responsible for any accident that would happen to the "hitchers" we believe it would not be long before the children would learn that they were not to be allowed to "hitch" to any car. "Safety First" means count the cost before the accident and not afterwards.

ported sick is improving slowly. The gripe has been visiting Bensenville altogether too much the last few days. The Chas. Standard family are just recovering from an attack of it.

Earl Atchison has been confined to his home several days, while his brother in law Jas. O'Keefe was absent from his regular duties four nights last week. Rev. Rander was also unable to fill his pulpit Sunday morning on account of a severe cold.

Mr. Lewis Gage of Jansville who visited Chicago for medical aid spent the week-end with his sister, Mrs. J. H. Valentine.

Reports from our local ice man, Owen Swales who is taking treatment for rheumatism at Excelsior Springs are very encouraging as Mrs. S. writes that he is getting relief and expects to be back home in two or three weeks.

Yard master Jess Capoot spent the week-end at Excelsior Springs enjoying a much needed rest. A few days away from the hustle and bustle of a busy railroad yard is much enjoyed by those who can take it.

Donald Smethurst is spending the week at the home of his parents at Waukegan, Wis.

Mr. C. A. Franzen who was spending the winter with his son in Arkansas returned home to attend the funeral of his brother B. L. Franzen. He will return south in a few days to remain the balance of the winter.

The L. O. F. Lodge of Bensenville will give their annual masquerade at the Social hall Saturday night with Nick's entertainers on the musical platform. Kniff said, "Odd Fellows Dance" and "Nick's boys" means a grand time will be in store for all who attend.

M. L. Doehrmann and family spent the week-end with the McMahon family at Milwaukee, Wis.

Bensenville people are beginning to realize the fact that they can see just as good a show right at home and when it is out they are but a few minutes walk from their door without a long train or auto ride in the cold. To visit the theater is to be satisfied that nothing but the best of films are placed on their screen.

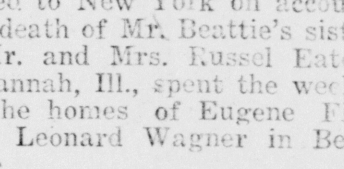

The B. A. C. are again talking of reorganizing for the coming summer and if they do will put a real ball team in the field. If they succeed in getting started it will be under the leadership of manager Biglow who hales from Maywood and from all reports he knows his "eggs" and can tell whether they are bad or good with out breaking the shell. If the plans go through the new manager will not be long in selecting a setting of the best "eggs" for his team. Both Stillman and Senna, who have been considering a good offer to play in other fields are now contemplating signing up with the B. A. C. and gleaming a lot of valuable pointers about the game under the expert leadership of Mr. Biglow.

Oscar Franzen, who is owner of the Franzen Hardware Co., was forced to leave his business in the hands of others while he sits in the jury box of the Federal Court in Chicago this month. Pretty hard for a business man to leave his business an attend to court cases but it is a duty that all have to perform sooner or later.

Mr. and Mrs. Harry Beattie were called to New York on account of the death of Mr. Beattie's sister. Mr. and Mrs. Russell Eaton of Savannah, Ill., spent the week-end at the homes of Eugene Fiedler and Leonard Wagner in Bensenville.

The C. W. C. will give a bunco party at social hall, Bensenville at 8 p. m. Feb. 17. Everybody knows what a fine time was had at the last one and should not miss this one.

Mr. Henry Wycoff, carpenter foreman for the Milwaukee railroad for a great many years and whose crew have made their headquarters at Bensenville for a long time, received a telegram Saturday morning which conveyed the sad news that his wife had passed away at their home in Lyons, Ia. Mr. Wycoff was preparing to leave for home to spend the week-end as he always does when the sad news came. Mrs. Wycoff had been in poor health several years. Mr. Wycoff has made many friends here being very active in I. O. F. and M. W. A. lodge work as well as personally overseeing the construction of the C. M. & St. P. Women's club house. The deepest sympathy of all is extended to the bereaved husband in this hour of sadness.

Junior's object lesson, "The Crystal Palace of the Christian's Playground."

No evening services at First church Sunday on account of the cantata given by our community chorus at Friedens church. The title of the cantata is, "The Messiah's Coming." It is a very beautiful cantata and the chorus has been working faithfully on it long time. It deserves a crowded church and we believe it will be advisable for you to come early.

The Ladies Aid society will meet at the home of Mrs. W. F. Earhart Thursday Feb. 4, at 2:00 o'clock. Mrs. Rander and Mrs. White will be assistant hostesses.

The monthly business meeting and social good time of the E. L. C. E. will be held Thursday evening, Feb. 4, at the home of Charles Earhart. This is an important meeting we hope all members will attend.

PALATINE

Harry Farrar aged nearly 92 years died at his home early Thursday a. m. at Palatine, Ill. Old age being the cause of death. Funeral will be held Saturday afternoon at 2 o'clock at the house.

Dr. and Mrs. C. A. Starek spent a week in Chicago visiting friends.

Dr. B. Grever of Barrington and D. H. Heller of Des Plaines have both certainly been kept busy the past two weeks answering medical calls and taking care of the numerous patients formerly taken care of by Dr. C. A. Starek in Palatine and surrounding community.

Mr. James Freeman is very ill at his home in Palatine and is under the care of a physician and a trained nurse.

Mrs. Carl Kranbler is under medical care.

THE DOG LERY

Where are our playmates of long ago. The boys and girls we used to know. Back in those days of carefree joy. When you were a girl and I a boy.

We had no Derby to make our life. One that was happy and without any strife. But we had our fun in other ways. A few years back in our childhood days.

Remember old Dobbin and the one horse sleigh. And the mirth and laughter along the way. Remember those games we used to play. A few years back in our childhood days.

I wonder where those playmates are. Some are near, yet many are far. And so this day I'd like to play. With them as I did in my childhood days.

But as we're separated by many a mile. Let's give these children our cheery smile. And root for them on this Derby Day. As we would have done in our childhood days.

—O. J. S.

Plans of New Palatine
School Ready for the
Bidders Very Shortly

Following several conferences between the high school board of education and the architect, plans for the new high school are being rushed to completion for early bidding. The original plans were so satisfactory that practically no changes have been made. The board and others who have inspected the drawing in the window of the State Bank and the plans, believe that it can not be improved upon. Indications are that there will be many bidders. The most desirable brick to be used is cream color which will make necessary any stone trimmings. This paper hopes to be able to publish a picture of this school in the very near future.

Public School Library Has Been Re-indexed

The library at the public school has recently been re-indexed and our attention has been called to a number of interesting facts. Did you know that it is not always necessary to go to an out-of-town library to look up some subject you may be interested in? There are 3 splendid sets of reference books in the school library besides several volumes of reference books on different subjects. We noticed among others "American Literary Readings" by Payne and Seligman, "The English Literature" by the upper grades 7 and 8 have 300 volumes for their use and each of the lower rooms have 150 volumes. Making a library of 600 volumes besides the School News Normal Instructor and Popular Education are used by the teachers and the Literary Digest by the pupils. Women's Club Members Hear Two Good Papers

The Woman's Club met Wednesday, January 12, in their regular club rooms. After the business discussion the program was taken up. Mrs. Rexford Volz gave a talk and read selections on the "Trend of Modern Literature," a thoughtful and most intelligent treatment of a difficult subject. She was early taught to consider literature as something pure, clean and uplifting. That much of our modern so-called literature fell far below this, early ideal. She quoted from Gertrude Atherton's latest book. She referred to a recent book written around the Loeb-Leopold unspeakable career. She also quoted largely from Rabbi Wise discussion of two recent "best sellers," "Helen of Troy," and "Sir Galahad," in which he so intelligently portrays the "trend of modern literature." Mrs. Volz confessed her own view, a pessimistic one. Referring to "Popular" books and best sellers.

She was reminded of the Chinaman's distinction between an odor and a stench. The latter might attract much greater attention and make the greatest stir. But most people prefer the silent permeating effect of a pure odor.

Mrs. Etzellmueller gave a most inclusive paper on "The place of art in life." She began with Renaissance and came down through the ages, showing the influence of the artist on the lives of the people, touched by his presence. She brought her treatment of the subject down to modern times, emphasizing the part art plays in the building of character and its intangible value in home and its surroundings." The influence of art is so elusive and so inseparable from all that is uplifting it was difficult to confine or express it in one short paper, but all were so pleased with Mrs. Etzellmueller's successful treatment of her subject they were enthusiastic in their praise.

Indeed Mrs. Volz Modern Literature with the paper on Art, were well worth hearing.

The music was given by the 8th grade orchestra, and was a delightful feature of the afternoon and the club adjourned to meet February 2nd for a Patriotic program.

Business Men Elect Officers

As this paper goes to press the Arlington Heights business men are holding their annual meeting and electing new officers. President W. F. Meyer refuses to succeed himself. He also has driven cars 15 years, but his first wreck occurred a long time ago. Moral to woman drivers. If you must have a wreck wait until after hubby has had one or two.

River Grove Dept.

WM. R. RIDGE, Local Editor

River Grove was showered with sweets Saturday when two special trains of 25 cars each loaded with Baby Ruth candy bars passed slowly through here accompanied by Miss Elsie Ploner entertained a number of guests at her home Friday evening. A delightful luncheon was served.

A good old fashioned party will be given by the River Grove business men's organization to the members and their families Thursday evening at the Progressive club. There will be music and refreshments from 9 p. m. until—

In a town like River Grove it should be unnecessary to solicit members, yet we find some who are in business in our town who do not belong, who think it does not pay. Some of these are not citizens of River Grove but come daily to collect our dough, take it back to the city and spend it. How would a boycott strike these defiant ones who think we are gym ornaments. It is the duty of River Grove citizens to see that the stores they patronize are acknowledged members of the River Grove business men's organization. If they are not, then remember you are spending your money to pay taxes of some other town. Be loyal to your home town. Patronize home town people. The money you spend in their stores helps to build a bigger and better village. You can do just as well if not better at our stores than you can in the city. Don't let million dollar syndicates hoodwink you into believing you are getting bargains. You'll find out later that they were dearly bought. If you live in River Grove, patronize home town dealers.

The lower grades of the River Grove public school are quickly depleted by the measles. The primary room has an attendance of only 15 out of an enrollment of 48.

The public school has begun practice on an opera, "The Maid and the Golden Slipper," to be given in Senf's hall, during February. Watch for the date and plan to attend as this promises to be a very enjoyable entertainment.

A Syndicate of real estate men, controlling 5860 acres on both sides of North avenue west of Des Plaines river, is forming the Greater North Ave., Superhighway Development association to enable all of the owners to work together in marketing the property. The land adjoins River Forest, Melrose Park, Franklin Park and is a part of River Grove village. The promoters seek annexation of the entire 5860 acres to one of these villages or incorporate as a new village to secure water and sewers. Part of these acres being in River Grove, the best advantage would lay in annexing to River Grove. This land will surround the new Forest Hunt and Polo club and will not doubt be highly restricted property.

Lottery's Golden Days

In the naughty eighteenth century, before the British people became so virtuous, the lottery was a public event almost more palpitating than the lord mayor's show. "Today," writes Swift to Stella in 1710, "Mr. Addison, Colonel Froland and I went to see the million lottery drawn at Guild hall. The jack-anapes of bluecoat boys gave themselves such airs in pulling out the tickets and show'd white hands open to the company, to let us see there was no cheat." In 1711 a son of Lord Aberdeen won £4,400 in the lottery. Today it flourishes most magnificently in Spain, but in England, also, in a modest way, at church bazaars; for lotteries are not wicked at bazaars.

Perfect Exponent of Bird Love Is Linnets

There are not two more devoted little lovers to be found than a pair of linnets. "I have often looked upon acts of devotion in the birds' world, but if you want to see bird love at its best you must watch the home life of the linnets," says Oliver G. Pike, the well-known ornithologist. Almost every action that they perform at the nest speaks of happiness, and you could not find any birds more attached to their young. "If enemies approach, and they are surrounded, the hen will fall to the ground, showing the greatest bravery, and by feigning a broken wing or leg will drag herself along, keeping dangerously near the cat or weasel, until she has attracted it far from the nest. While she is bravely doing her duty the male will stand by the young, covering them with his wings until his mate returns. But when at last the young are able to fly they are led from the nest, and they never return to it again. The beautifully made home is deserted, and three weeks later the parents prepare to rear another family in a new nest."

Mr. and Mrs. H. Davis are proud parents of a baby girl.

The beautiful spread raffled at the Firemen's bunco was won by Mrs. Wm. Boldt.

The firemen will be the next entrants in the River Grove goodfellowship bowling league organized by the Progressive club.

The firemen's bunco party, Wednesday evening was a great success. About \$175 was cleared. This money they intend to put towards a modern fire engine to replace the relic we now have.

Now is the time to number your houses. A chart with a number for every lot is on display at the offices of McNeerney & Gierz. Your number can be had by calling there with the description of your lot.

A new telephone directory containing the names of every one taken in the last year of River Grove is being published by the Illinois Bell Telephone Co. It also contains the kind of business each business man is engaged in.

To the many ex-service men in River Grove, the organization of an American Legion post may be of great interest. Steps have been taken by Judge McNervy to organize one here. All that is required is your signature in support. If you have been in the service see the Judge and help River Grove to its place in the Legion.

A petition for better train service in and out of River Grove is being prepared by the riders who take the trains daily to and from Chicago. Many trains pass through without stopping, which should stop and a petition to the officials is thought to be a remedy for the poor service we are now getting.

In the recommendations of president Cermak's advisory committee on road widening and emergency construction the recommendation of the following roads for widening and new construction should be of great interest to the people in and around River Grove. New 20 ft pavements of Grand avenue from 24th avenue to Mt. Prospect road; 25th Ave. from Melrose Park to Lawrence Ave; North Ave. from Thatcher road to C. M. St. P. tracks to Higgins road; First Ave., from Thatcher road to the River Road. The present pavement of 20 ft. will be widened to 40 ft. on River road from Roosevelt to Wheeling or the Lake County line. Harlem Ave., when completed will be a continuous boulevard from Will county on the south to Lake county on the north. These and many other improvements are on the committee's program so you see the possibilities for River Grove and surrounding territory are very encouraging. I dare say there are more paved highways leading into River Grove than any other town in Cook county outside of Chicago.

Political campaigning for the coming spring election has already begun in River Grove. Several citizens at a meeting Sunday practically formed one of the tickets. Maybe that is the reason for such warm weather Sunday. Wonderful platforms of Golden promises to the citizens are being prepared, but let it be remembered that the promises are about the only things we have gotten year after year with a few exceptions. The committee on street lights of which Mr. Gillen is a member was sitting comfortably idle until, with the election of Mr. Koenig their ease was somewhat perturbed. The poles for the lights, promised two years ago are just going down. Many other instances of the like could be cited but what we need now are men of action, not promises, men who in their political connections are fearless, confident and efficient, men who are capable of handling the affairs of the people as the people want them handled.

A bowling match at the Elmwood Alleys, Sunday evening between Fernbach, Trapp and Freitag. Geismann was won by the latter. Scores 2925 and 2942 pins. The games were bowled across 8 alleys for a purse of \$400.

The bowling standing of league 2 is:

It was Children's day in a small country community in Oregon. The very young and inexperienced minister seemed to be somewhat disconcerted by the row of little boys and girls in their starched best who sat in front of him. After several starts, which seemed to get him nowhere, he suddenly stopped, clasped his hands, raised his eyes to heaven, and with a beautiful smile said: "And what is so sweet as the face of a little upturned child?"

The burglar had entered the house as quietly as possible, but his shoes were not padded and they made some noise.

He had just reached the door of the bedroom when he heard some one moving in the bed as if about to get up, and he paused.

The sound of a woman's voice coated to his ears.

"If you don't take off your shoes when you come into this house," it said, "there's going to be trouble, and a whole lot of it. Here it's been raining for three hours, and you dare to tramp over my carpets with muddy shoes on. Go downstairs and take them off."

He went downstairs without a word, but he didn't take his shoes off. Instead, he went into the night again, and the pal who was waiting for him saw a tear glisten in his eye.

"I can't rob this house," he said. "It reminds me of home."

"Hit may be hard fo' a rich man to enter de Kingdom of Heben," said Rastus to de preacher, "but his jest as hard fo' a po' man to stay on de earth."

"Now, waiter, I want an extra nice porthouse, cut thick. Give my regards to the chef. Tell him to put a little piece of fat on top when he grills it, and to sear it quickly on the outside, so it will be juicy. I don't want it burned up nor should it be undone—just right, a little rare in the middle, you know, and plenty of gravy. Now tell the chef exactly what I require."

"Yes, sir," replied the waiter, "certainly, sir." Then he shuffled to the rear, whistled down the speaking tube and shouted: "Hey, Joe, bistek!"

We appreciate the Sunday night service at the M. E. church with the addition of the stringed instruments and saxophones. Miss Elliott, Miss Clotier, Mrs. Curtis McFall, Frances Ferris playing the violin, Mr. Lynn Ferris saxophone, Mr. Sybert Martin, choir manager and H. Garfield Taylor director, wants a larger orchestra as plans are being formed for another radio concert and Easter music. The choir and orchestra will practice at the church Saturday at 7:30 p. m.

The cafeteria luncheon and social given by the Ladies Aid of the M. E. church Thursday evening, Jan. 20 was a great success. About 125 people filed down the line and partook of the best that culinary art could produce. The program took the form of an old fashioned informal social with instrumental music and singing of old time songs. This part of the program gave the younger set a slight idea of the social evening of long ago while to some of the older folks if brought memories of their youth if we had more such occasions we would know one another better.

The Franklin Park school band held their first meeting with the parents and children in the public school Saturday night and the children showed a great amount of enthusiasm. Mr. J. J. School of Music Inc., took charge of the meeting and when all the names were

handed in he said he had enough to start. The first meeting with the children will be Tuesday afternoon. If you want your boy or girl in the band have them notify the principal Mrs. Mary Lator or Mr. Baker, and they will arrange it for you. Now we have started let us give the children all the encouragement we can.

Village President Seibold and trustees Smith, Popp and Lauffer are entitled to the thanks of the Franklin Park citizens for declining to issue saloon license on Franklin ave. east of Rose street. Chief Mulso was called away last week to the funeral of his father in South Dakota, we are sorry to hear of the Chief's bereavement.

Mrs. Israel has been taken to the hospital in Chicago, the editor feels sure that her many friends wish her a speedy recovery and that she will be with us again real soon.

William Horstman was also on the sick list but he is up and around again with his usual smile.

Our congenial friend John Pohlman has been on the sick list for a couple of days and from all indications he will be around again in a hurry.

Miss Jackson the county health nurse in the district desires to extend her sincere thanks to the school children for the splendid cooperation given during the holiday season and also for their gifts which so splendidly helped a good number of poor families.

Our village should be proud of the condition of its roads during the heavy snow storm as they were about the first to be opened and kept open all the time. Our village board did their part in fine style and the chairman of the sidewalk and street committee as well as the superintendent of streets deserve the praise of every one of our residents.

A week ago Sunday the annual congregation meeting was held at our church and the election of officers also took place. Henry Harkamp was re-elected chairman as was Henry J. Ehard re-elected treasurer. George Busse was elected trustee. Five new members were admitted and seven more were recommended for membership to be admitted at the next meeting.

Our local skating pond is in full swing and everybody is enjoying the skating this season. Truly we are having our share of cold

weather now and let us hope it will bring us an early spring so that our village can proceed with its many improvements planned for this year.

Our merchants are getting ready for a Trade at Home campaign which we hope they will put over in a real fashion and then that our citizens will do the trading at home. As we expect our merchants to do things for us we must support them in their business and we know they can give us a good bargain as we can procure any other places so trade at home and save.

A final warning to our local auto owners is that the time is here for your 1927 license. Be sure you secure your local vehicle tag before it is too late. The sooner you get it the less you will find to worry about.

1927 is bound to be a banner year for our village and judging from the operation of the real estate men, Mt. Prospect is going to grow by leaps and bounds. Let us hope we will have at least 100 new homes erected before this year is ended.

Please remember that our merchants have their stores open Thursday afternoons but they are closed on Wednesday evenings. The only night they are open is Sunday night.

Our new pump house is going along. If the weather would only be a little moderate the chances are it would have already been completed, as soon as the new pump arrives we will be in a wonderful position on the water question and we will have nothing to fear in the way of a water shut off or restriction on the use of water.

William Busse & Son have an exceptional Hardware and House-furnishing sale on this week. If you want some real bargains better pay them a visit before this sale ends.

We are indeed pleased with the reports of our various merchants. All are doing a splendid business and are anxious to please the people in every way possible.

Gave Name to Ray

The X-ray (Roentgen ray) was discovered in 1895 at Wurzburg, Germany, by W. K. Roentgen. He was using apparatus comprising Crookes tubes. While thus engaged he perceived certain peculiar manifestations never before observed. This led to investigation, with the outcome that the discovery was made that the production of X-rays is incident to the use of such tubes. Knowledge thereof spread very quickly throughout Europe and the United States. The utilization of the rays for curative purposes soon came about, and since that time there has been refinement and improvement in the apparatus by Coolidge and many others.

Among the Theatres

Critics Praise Harold Lloyd's Latest Picture

With the reports of all of the daily newspaper motion picture critics in Chicago favorable to the superlative degree in judgment of Harold Lloyd's "The Kid Brother," now at McVickers theatre, Famous Players recently announced that out of twenty-two American and Canadian cities where the picture has played or is playing, it has not yet received an adverse criticism.

Furthermore, according to Lester Whelan, assistant chief of Famous Players-Lasky bureau of "vital" statistics, a checkup of Harold Lloyd's film career reveals the fact that he has never made a "flop" (an unpopular film in screen parlance), and he enjoys a rating of .987 in the total number of newspaper, magazine and trade-power reviews published in description of his pictures since he made his first feature length picture in 1918.

"There are times when motion picture producers explain away a poor film by saying 'you can't make 'em all good,'" says Mr. Whelan, "but for eight years Harold Lloyd has been disproving the fallacy."

"Harold has always kept his fun clean, and has always insisted on swift action and an unrelenting comedy tone. After a manuscript has been accepted, he sometimes has as many as fifty famous humorists give him advice or to assist in heightening comedy situations. And after the picture is completed, he attends as many as forty or fifty previews, to assure himself that the picture is all it should be before it goes to the public. No one in filmdom is more careful than Harold Lloyd is. That's why all of his pictures are so well received by the press and the public. And 'The Kid Brother' is a notable example of his thoughtfulness in production."

Krueger Weeks Are Popular at Uptown

Bennie Krueger in another smashing big show, star-studded, will be the headlined attraction at the Uptown theatre for a week, beginning next Monday. Uptowners have come to look forward to the Krueger weeks at the Uptown theatre. This time Krueger will again depart from his usual presentation and offer a stage novelty in which he will be assisted by his orchestra and a host of stars, which includes dancers, singers, clowns and other funsters.

In addition to the Krueger show, Milton Sills will hold forth on the screen in his latest First National release, "The Silent Lover." This is a story of the heroism that may be found among the men of the French Foreign Legion. Practically the entire story is laid in that part of Africa under the protectorate of the French Republic. Assisting Sills in the cast are such players as Viola Dana, Alma Bennett, Natalie Kingston, Charlie Murray, William V. Mong and others.

An added attraction entitled "The Four Seasons," a timely and topical revue with skating girls, bathing girls, athletic girls, singers, dancers, musicians, and featured with a high calibre tumbling sextette, will be shown on the stage.

"The Flaming Forest" At Norshore Theatre

The stirring history of the founding of the great Canadian Northwest Mounted Police, an army of a few who conquered the lawlessness of an almost unexplored empire within the confines of the Dominion of Canada, has been reproduced on the screen by Cosmopolitan and will be seen Sunday at the Norshore Theatre under the title "The Flaming Forest."

The picture, directed by Reginald Barker, famous for his direction of great out-of-doors films, is a screen adaptation by Waldemar Young of James Oliver Curwood's

was ever at home overnight.

But I found, at Carrollton, the first man who has yet told me he heard Lincoln and Douglas debate. He is Dr. James Squire, 83 years old. When he was four years old, he recalls, he crawled up on the platform with them and sat thru a barrage of oratory.

Old timers tell me it was hard down here in the beginning. Land was easy to get but there was no money. Taxes had to be paid in cash and cash was the farmer's worst problem. Many of them used to go up to Galena in the fall and work in the mines because that was the one way they had of getting money.

Radio's substitute then was shell corn. Farmers used to "shell corn while they rested" during the evening in their log cabins. Carrollton, center of a first class farm country, hasn't grown much. The population was put at 2,020 in 1920.

Southern ancestry preponderates and as a result the county has persistently been democratic in politics. The southerners drifted north in the beginning, coming up the Mississippi and Illinois rivers on their hunt for better lands.

Congressman Henry T. Rainey, twentieth district, is the ranking member—the oldest in point of service—on the democratic side of the "house" in Washington. He lives in Carrollton on a farm just at the edge of the village. And it might be said, Congressman Rainey is one of the most influential members of Congress in Washington and always on the job when Illinois affairs are at stake. (No politics meant in that remark.)

The business is owned locally and F. A. Whiteside, attorney and banker, is president of the corporation. The company controls 160 acres of clay deposits which include some unusually fine kaolin and pottery clay.

Deposits of fire clay have been found nearby and a second company, backed by outside capital largely, is being organized with view to developing them. These clays were carried in during the glacial period and laid down in veins up to thirty feet deep in the vicinity.

With the development of these industries there is a belief some houses will have to be built. Pretty good houses can be rented now in Carrollton at from \$15 to \$30 a month.

In the past one of the chief labors of the county has been cattle feeding. The two banks in Carrollton average in cattle loans about \$350,000 a year. This money goes to buy cattle in St. Louis and Kansas City. I asked Stuart Pearson, bank cashier mentioned above, about the so-called "plight of the farmer." Mr. Pearson said:

"The farmer has no plight. Plenty of farmers are making money. Plenty of them always have. Smart farmers, the ones who have brains and work and think, are prospering. I'm annoyed by all this talk about farmers not making money and being in hard luck."

"Constant agitation of this kind makes a worse farmer out of a poor one. It gives him an alibi. Besides that the agitation has frightened off investors and has beaten down the sales value of farms. Farms bring less money because of the talk. I'm out of patience with all this talk about poor times on the farms."

And that's that to think about. Last year Carrollton set out to develop a slogan. About 250 of them poured in. Finally this one was selected—"A Century Old, Still Young."

Then the police went out and recently stuck up signs on all the light posts around the square where people park autos in the center of the wide street. The sign is:

"Do Not Back Out."

Which I maintain would be the better slogan of the two.

(This is the eighty-eighth of a series of articles written for the Illinois Chamber of Commerce entitled "Re-discovering 'Illinois'." Their purpose is to benefit, build and develop Illinois as a whole. The next will be published soon.)

Arctic Explorer Gives An Illustrated Lecture

An unusual and very interesting illustrated lecture was given by the arctic explorer, Commander Donald B. McMillan, at New Trier High, Jan. 20. Many of you must have heard his name over the radio about two years ago, when they were sending messages to him and feared his party was lost as no reply came. He showed a 7000 ft. reel of pictures taken in the Arctic regions. How they caught big halibut averaging one a minute, and where trout were so plentiful they scooped them out of the water with a dip-net. They caught polar bear cubs and even a young musk-ox and made a pet of him. Sleeping in the Esquimaux igloo built of frozen snow cakes was a never to be forgotten experience. No fire could be built inside or the house would melt and when the temperature out doors was 60 below, the body warmth and steaming breath of the sleepers huddled together, might bring the indoor temperature up somewhat. Good-night!

Right! Anyhow McMillan, who has been exploring in the Arctic the past 18 years must like it for he expects to go again in the spring in the good ship "Bowdin" of wooden structure and stay 2 years. After he gets there wherever that is, he lets his ship freeze in and then goes out on excursions of hunting, fishing and exploration from there. Last trip his ship was frozen in 350 days before he could break free and return. The next of McMillan's wife, Elizabeth, is a teacher last year and her name is Miss Fob. I don't suppose he would ever dare take her along on a trip for fear he would get lost at sea.

NILES CENTER

Mrs. Henry Remke gave a one o'clock luncheon and bridge party Friday, Jan. 21. Attending were Mesdames Emma H. Harter, Ruby Galitz, Vera Nothling and Victoria Harter of Evanston; Lillian Kaiser of Morton Grove; Myrtle Kiehn, Lillian Allen, Edna Baumhardt, Irene Harms, Pearl Mayer, Louise Kiehn and Miss Elsie Stielow, who scored high, Mrs. V. Harter being second.

Niles Center folks who enjoy going out of town occasionally to attend a movie find it very convenient to go to the Norshore theatre. They have 12 minute service on the "L" trains and 14 cents round trip fare to Howard street from which station it is only a block to the Norshore and a good show with specialties and orchestra in the evening.

A Chicago paper gave the following caption: "Man Drinks Shoe Polish Thinking It 'Moon' Dies;" We don't believe he was doing much thinking.

Mrs. Seth Shepard maintains her home here, but is absent more or less. She intended to go to Michigan this week to visit a brother, unless weather conditions were too unfavorable.

Leroy Harter and family visited at the Geo. C. Klehm home Sunday.

The Alpha Phi Lambda met with Miss Elsie Stielow, Saturday p. m. Jan. 22.

Mr. George Kaiser went to Mayo Brothers Hospital at Rochester, Minn., for observation as his health has not been good for some time past.

William Mueller and family of Fessville, have moved in their new six room brick bungalow in Elk Grove.

Mrs. Edward Ruesch celebrated her birthday Sunday. Those attending were Mr. and Mrs. Jacobs of Schiller Park; Wm. Mueller and family of Elk Grove; Wm. Bockenhauer and family of Chicago; John Schadt and family of Chicago; Mr. and Mrs. Christ Bremer of Niles Center; Mr. and Mrs. John Bockenhauer and daughter Shirley; Edward Bockenhauer and family; Mr. and Mrs. Elmer Jacobs of Schiller Park; Mrs. A. Cosmen and family of Norwood Park; Grandda Bockenhauer of Niles Center; Kate Birkenheiser; William Jetterman, Harold Ahrens, Johnny Ruesch, Charles and William Harte, Emil Marguardt, Raymond Ahrens, and Hy Muller of Park Ridge. At 6 o'clock Mrs. Ruesch served a chicken supper, after supper the ladies played cards. Prize winners were Mrs. Wm. Bockenhauer, first; Mrs. Elmer Jacobs, 2nd and Mrs. A. Jacobs, 3rd; Miss Ruth Schacht, 4th. We wish Mrs. Ruesch many more happy birthdays.

Winifred Mueller of Elk Grove likes her new school very much. If any of her school mates of East Prairie want to drop her a few lines her address is Bensenville, Ill.

St. Peter's Evangelical Church
The pastor and several of St. Peter's church members attended the funeral service of Rev. H. Wolf at his former church near Bensenville Thursday, Jan. 27. Rev. H. Wolf served this church from Jan. 23, 1881 to Sept. 1, 1889. In behalf of the congregation the trustees send flowers with a letter of sympathy to the Wolf family. Also ordered the church bells to toll at the time the funeral procession is on the way to the church. These bells were purchased through Rev. Wolf and are now tolled by one of his former pupils, Wm. Warkentin.

Electricians are at work in the church improving the lighting system as ordered by the Willing Workers.

The newly elected officers of the church were installed last Sunday. They are: church council, Trustee to prayer, church trustees, C. J. Ahrens and A. J. Mayer; cemetery trustee, Ed. W. Guenther.

Ladies Aid officers: president, Minnie Jarmuth; treasurer, Elizabeth Banmann.

This country now has 9,800,000 telephones in use. Now let some statistician figure out how many combinations that offers central for getting the wrong number.

An Opportunity to Get Some Bargains in Duroc Bred Sows and Gilts

Tuesday, February 1, 1927

This is sure to be the most sensational live stock sale ever held in the country, because although sows will be sold in the usual way to the highest bidder, no bid over \$250.00 will be accepted. As the offering will be very large, the plan will guarantee every breeder an opportunity to buy a sow or gilt bred to the greatest grand champion breeding boar in the country today, at a reasonable price.

Last year breeders bid five, six, seven and even as high as eight hundred and thirty dollars on a single entering, and the offering this year will be far better than of last year.

I have a large herd, more than I can carry through farrowing, and this year I am ambitious for volume of sales rather than high prices.

Catalog in request, with full particulars.
